The LoveBook™

Activity Book

For Couples

About this book:

This activity book is not meant to be for relationship repair or an advice tool. It is simply a fun way to spend some time with your partner, learning a little about each other, and having a great time doing it. However, it can be used to build on your existing relationship, whether you are just dating or have been married for 50 years. Part of a great relationship is learning about one another, sharing your thoughts, and doing fun activities together. What better way to do this than with The Activity Book Meant to be Shared™!

How to use this book:

It is really up to you! You can fill out your entire section, and then have your partner fill out their section. Or you may want to complete one activity at a time, then compare your answers. The only requirement is to have fun while filling it out!
